

In the Claims

The claims have been amended as follows:

1. (currently amended) A water-soluble corrosion inhibitor composition comprising:
 - (a) between about 97.5% ~~97% and about 99%~~ percent by weight ammonium benzoate; and
 - (b) one or more additive components in an amount of between about 2.5% ~~1% and about 3%~~ percent by weight of said composition, said one or more additive components being selected from the group consisting of silica, triazoles, and wetting agents.
- 2-4. (canceled).
5. (currently amended) A corrosion inhibitor composition comprising an aqueous solution having between about 0.25% and about 5% by weight of an inhibitor material, said inhibitor material including:
 - (a) between about 97.5% ~~97% and about 99%~~ by weight ammonium benzoate; and
 - (b) between about 2.5% ~~1% and about 3%~~ by weight of one or more additive components selected from the group consisting of silica, triazoles, and wetting agents.
6. (new) A water-soluble corrosion inhibitor composition comprising:
 - (a) about 97.5% by weight ammonium benzoate;
 - (b) about 2% by weight triazoles; and
 - (c) about 0.5% by weight wetting agents.
